Dual Enroll Course/College \_\_\_\_\_

Not all college courses transfer from one college to another. Students should check with their college of choice to make sure the dual enroll course they are taking will transfer.

State law governing dual enroll courses requires students to select one of the three choices below.

\_\_\_\_\_ Dual enroll course will be taken for college credit only

Making the selection above means the grade and credit for the course will only show on a transcript from the college where it is being taken. Credit or grade will NOT show on your high school transcript and credit will NOT be applied toward the 22 credit hours needed to graduate from Bellaire Public Schools. (Maximum credits earned in four years of high school at Bellaire are 25) Check with the counselor to make sure this is not endangering your credits needed to graduate.

\_\_\_\_\_ Dual enroll course will be taken for college and high school credit

Making the selection above means the grade and credit for the course will show on a transcript from the college where it is being taken and also on your high school transcript. Credits earned will be applied toward the 22 credit hours needed to graduate from Bellaire Public Schools. Equivalent credits and grade will be counted toward the student's high school GPA and class rank.

\_\_\_\_\_ Dual enroll course will be taken for high school credit only

Making the selection above means the grade and credit for the course will only show on a high school transcript. Credits earned will be applied toward the 22 credit hours needed to graduate from Bellaire Public Schools. Equivalent credits and grade will be counted toward the student's high school GPA and class rank. It is the student's responsibility to have the grade removed from their college transcript.

If this course is being taken as a replacement for a course required for graduation under the Michigan Merit Curriculum please list below the high school course you are replacing and obtain the signature of that department teacher at Bellaire Public Schools. (Not all college courses fulfill the requirements of the Michigan Merit Curriculum) If the dual enroll course is being taken for elective credit only, leave blank.
